

My wife and I were “very impressed & satisfied” with a job that Garry did for us recently. It involved the replacement of a stairway to a 2nd storey deck. He was prompt and professional and the material he used in this project was so superior to the original that the stairs and deck is now a sturdier and stable unit. His real skill lies in his attention to detail & his excellent craftsmanship. He obviously takes pride in his work & I would not hesitate to recommend him to friends and family. *Keith & Michele Orioux*
